Simon Davies

Web Developer

📍 Brisbane, QLD   @ iamSyDavies@gmail.com   📞 0449 192 068

C.V.

I am a tech graduate with advanced programming knowledge and an excellent understanding of graphic design principles. My expertise lies in the designing & developing of full-stack web applications, from concept to code. I am seeking a role where I can leverage my skills into an innovative & knowledgeable team environment; where I can showcase my creativity & deliver well-crafted, accessible technology that caters to a myriad of use cases.

Recent Projects

Resource Library

Utilised GitHub to create a personal library of digital resources for the purpose of streamlining the development process & automating repetitive project tasks. including;

- prebuilt structured directories with working html/JS/CSS pages & links.
- responsive templates with 4/8/12 column grid systems at various breakpoints for fast layouts.
- design systems built with SCSS & Parcel. Dynamic colour palettes, typography scales & utility classes can be quickly generated by editing 1-2 root inputs.

ToDo List App

Using vanilla javascript, html & css, I created a lightweight 'To-Do List App' with;

- functionality to add/remove custom tasks & categories.
- ability to filter results by category.
- maintain state during interactions & persist data. through page loads via Web Storage api.
- responsive design built to WCAG2.0 accessibility standards.

Skills

Languages	Tools	Systems
HTML5	VS Code	MySQL
CSS3	Adobe Creative suite	MongoDB
Javascript	Figma / XD	NodeJS
PHP & SQL	Terminal	AWS
SASS	Browser Developer Tools	Docker
	Git	

Education

TAFE, Queensland

2020-2023

Diploma of I.T

- Specialisation in Back-end web development.
- Specialisation in Front-end web development.
